

## Ring Size Guide & Chart

**WOMEN  
&  
MEN**

To find your ring size, start by using an existing ring that fits comfortably on the finger where you want the new ring.

Measure the inner diameter of this ring with a ruler as shown in the image above. Then, refer to our Ring Size Chart to determine the corresponding size.

If you prefer, you can also send us a photo of the ring placed on a ruler, as shown in the image above. Our team will use this information to help you find the perfect fit.

**Please Note: For Men's Rings, Please Refer to the MM Size based on the inside diameter of your pre-existing ring.**
